

# UTRACK

TOTAL CONTROL

ADVANCED FLEET MANAGEMENT SYSTEMS

## Fleet Pro

*A fleet telematics unit, primarily suited to sophisticated power users of fleet management solutions..*

*The device boasts a wide array of functionalities including distribution management, vehicle maintenance and operation (real time fuel consumption, brake usage, remote vehicle fault diagnostics), comprehensive accident reconstruction, integration with back office platforms (Routing & Scheduling, WMS, ERP) and POD systems.*

UTRACK Fleet Pro forms part of the MHub Fleet Telematics series designed to address many of the operational challenges prevalent amongst the commercial fleets.

The Fleet Pro unit has been deployed around the globe across a variety of industries including logistics, utilities, insurance, telecoms, public transport and emergency vehicles, providing the operators with real time delivery execution analysis. The data can be further utilized to dynamically resolve delivery problems and to further optimize future delivery schedules.
