

Track your assets with a powerful battery, When an emergency occurs, you can enter the continuous tracking and positioning mode to find assets. Built-in strong magnetic to ensure the product to stick firmly on the metal interface, easy to install.

Key Features

- Accurate location
- 5 years standby time
- Powerful magnet
- IP68 Waterproof
- SMS and APP
- Can change interval time
- Light sense alarm
- History route
- Dual Mode location
- Temperature monitoring

Powerful Magnet

It has built-in powerful magnets, can be very easily installed and hidden.

5 Years Standby Time

This product uses high-quality high-tech lithium-iron battery pack, battery life of 15 years, long standby for 5 years.

IP67 Waterproof

The product meets the IP67 three-proof standard and is resistant to salt spray corrosion.

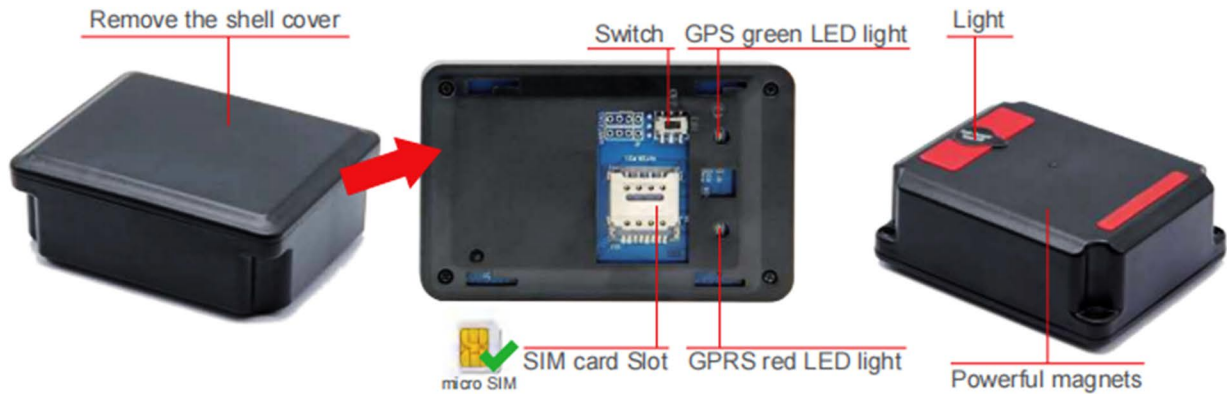

Scope of Use: Financed Assets, Insured Assets, Trailers or Containers, Fixed Assets.

Customizable metal connectors are used for cylindrical non-metal asset objects, similar to water pipes, cables, and optical fibers.

U-TT1 (4G)

	Region	Network	GNSS Type	Position Accuracy
U-TT1	Worldwide	4G Cat M1, NB	u-blox All-in-One GNSS receiver	GPS positioning error <10m

Specifications

Characteristic	Description
Built-in battery specification	Disposable Lithium-ion battery and (3.6V , 8100mAh) and ultra-low discharge rate : less than 1%, store one year below 25°C
Power consumption	Average working current <100mA; Power save current <15uA
Battery working time	5 years
Dimension	81mm(L) × 65mm(W) × 31mm(H)
Weight	192±5g(Light sensor Standard)
Working Temperature	-20°C ~ 70°C
Frequency	GPRS: 850/900/1800/1900MHz Cat.M1/Cat.NB1: LTE FDD B1/B2/B3/B4/B5/B8/B28
GNSS	GPS L1:1575.42MHz,C/A CodeBD B1: 1561.098MHz

Functions

- * Position Monitor
- *AGPS
- *LBS
- *Blind Zone Compensation
- * Intelligent Tracking Function
- *Warehouse Mode
- *Motion Still Detection Mode
- * Clock Mode
- *Battery level detect
- *Temperature and Humidity Detection
- *Backend Specific Commands
